March 28, 2020

This is a quick note to tell you that we are uploading all of our notices to our website. They can be found here:

<https://harrisonpointe.ca/information-for-loved-ones/>

We will continue to send out emails but if you need to go back and look at any previous notices or want to check the latest notices, you will find them here.

We just received notice that Amica in White Rock has a nurse that has tested positive for COVID-19 and all residents are now quarantined.

We also want you to know that we have taken the precaution of quarantining all residents who have received services from the Fraser Health Authority through Langley Home Health. This is because there are a few care aides that have tested positive for COVID-19 that go between facilities but the FHA will not advise us who they are (citing confidentiality reasons) so although we know the name of every care aide with FHA that has been in our building, we don't know if they are one of the ones who tested positive. So again, erring on the side of caution, we have quarantined all of those residents and are checking them for fever and symptoms twice per day.

People still make light of this situation, including some of our residents who are angry about the suspension of activities. But to overlook the grave danger of this disease, particularly to the elderly would be a travesty. If you have a family member here who is not too happy about the suspension of activities and regulations regarding social distancing, perhaps you could remind them of the gravity of the situation.

Thanks for being so supportive! We are all in this together!

Sincerely,

Glenn S. Bell, BCLS, ASCT
Co-Owner and General Manager
