November 26, 2020

Hi All:

Not much to report this evening. We have received our shipment of swabs and will begin swabbing everyone tomorrow morning.

We do not know yet if we will have any LPN's from FHA, so we may have to do this with just our own nurses, but we will get it done tomorrow.

Again, thank you for your continued patience, good will, kind spirits and tenacity.

We will all get through this safe and healthy and return to normal very soon.

Sincerely,

Glenn Bell
