

December 14, 2020

Hi Everyone:

We have received all the results of our PPT swabbing from Saturday, with the exception of 4 residents who have to be re-swabbed due to the sample not being sufficient for testing. Those 4 swabs will be shipped to BCCDC today. All results that we have received have been NEGATIVE.

I will let you all make your own predictions this time!

We will have the results of the re-tests by Wednesday.

On a related item, if you are using cloth masks, please wash them at the end of each day in your sink (Laundry is closed by Order of the Medical Health Officer). If you are using the blue surgical masks, please come to reception and get another one every other day or if you go to a doctor's appointment replace the mask with a new one upon return. Our staff can show you how to safely remove your mask with the least risk of contamination, if you need advice. We have thousands of masks, so please dispose of them regularly to prevent accidental infection.

Sincerely,

Glenn
