Hi All:

December 7, 2020

We have received the results on all but a few of our staff and they are all NEGATIVE. We have only received the results on roughly 2/3 of our residents, but so far all are NEGATIVE as well. I anticipate that we will receive the rest tonight but it will be too late to do another email this evening, so I will let you all know in the morning.

We remain very optimistic!

We will have a nice Christmas dinner for everyone here as today's message from Bonnie Henry paints a pretty bleak picture with respect to family gatherings. We will be sure to take lots of photos and share these with family members on our website, facebook page and via emails.

I think we are out of the woods, but I really don't want to make that call again without absolute proof, as I have been wrong in the past.

As soon as I know something, I will let you all know.

Thank you for your continued patience, kind words and encouragement.

- Glenn
